

To do now...

- Start the clear out
- Learn provisional moving day

2 months before moving

- Order packing materials
- Find storage

5-6 weeks before moving

- Get a free quote & moving plan
- Pack the non-essentials

3-4 weeks before moving

- Confirm your moving day
- Contact your providers
- Redirect your post
- Cancel subscriptions & deliveries
- Plan for your pets
- The final pack... Fear not!
- Defrost and empty fridge-freezer
- Finalise details with us
- Pack a first-night bag

The big day!

- Take meter readings & request final bills
- Complete & collect your keys
- Complete Checkatrade review

After the move

- Register with doctors/dentists
- Change the locks
- Notify a change of address
- Move items from storage when you're ready

Terry's top tips

- Royal Mail has a redirection service that automatically redirects your mail to your new postal address.
- Request final bills from your electricity, gas, water and broadband providers on your moving day. It's also worth taking a quick photo on your phone of your meter for records.
- During our quotation process we will provide you with our recommendation for packaging materials you will need.
- Make the move as comfortable and stress free for your furry friends as possible. Consider kennelling or get a friend to take care of them. However, if they're going to be with you on the move day then put them in a quiet room with their favourite toys and treats.
- Moving day is stressful, so make sure you pack a bag with your essentials like your phone charger, toiletries etc.
